

## Garage Band--quick instructions

---

Launch the program.

Click on New Podcast Episode. Name the file with the speaker's name.

Click on Male Voice (it might change to Female Voice, and it really doesn't matter).

Click the red button to begin the recording. Speak directly at the computer screen.

As the voice is recorded, you will see the track (in purple).

To stop recording, click the stop button.

To go to the beginning of the recording, click the "rewind" button.

To play the recording, click the "play" button.
